SUMMARY

As an M.Sc. Computer Science graduate with hands-on experience in the MERN stack, I am interested in full-stack and frontend development. I enjoy building responsive user interfaces and working with backend APIs. I am seeking an internship or entry-level role where I can apply my skills, learn from real-world projects, and grow as a developer.

SKILLS

Tech Stack: JavaScript, React.js, Node.js, Express.js, MongoDB, HTML, CSS, Git, GitHub, Postman, MS Office.

EDUCATION

SRM Institute of Science and Technology

July 2023 - Apr 2025

- Master of Science in Computer Science

Sri Krishna Arts and Science College

July 2020 - May 2023

- Bachelor of Science in Computer Science

INTERNSHIP

JUZGO DIGITAL, Coimbatore.

Software Development Intern.

Jan 2025 - Apr 2025

- Gained guided exposure to web development fundamentals and the MERN stack during the internship.
- Built a basic e-commerce web application to understand core concepts such as CRUD operations, user authentication, and REST API flow.
- Learned full-stack application structure, Git-based version control, and responsive UI development.

JUZGO DIGITAL, Coimbatore.

Manual QA Intern.

May 2024 - Jun 2024

- Executed manual testing of web applications to identify and document bugs, UI issues, and performance bottlenecks.
- Validated API responses using Postman, ensuring functionality and reliability of endpoints.
- Gained practical understanding of SDLC, bug tracking, and QA processes.

PROJECTS

Placement Management System

- Developed a full-stack Placement Management System with role-based access for students, companies, and administrators.
- Implemented JWT authentication, email notifications, and real-time updates for job applications and interviews.
- Built a responsive dashboard using React, TailwindCSS, and Recharts for analytics and reports.

PetFinds Web App

- Built a MERN-based Pet Adoption Web App to connect stray and abandoned pets with potential adopters.
- Developed RESTful APIs using Node.js and Express.js for managing listings, authentication, and adoption requests.
- Implemented a responsive UI in React.js and used MongoDB for secure data storage.

CERTIFICATIONS

- Full Stack Web Development – MERN (Guvi), Cloud Computing & AI Concepts (IBM), Cloud Security (Zscaler), Cloud Architecture & Cloud Foundation (AWS)
